

Anteo Nature Écru Vintage 2008
Oltrepò Pavese Metodo Classico Pinot Nero DOC
Extra Brut

The Nature Écru is produced using Pinot Noir grapes from our own vineyards in Rocca de' Giorgi (PV). It shows a great structure, a great complexity on the nose and on palate with a very long persistence. Excellent when served as aperitif, it is suited for all courses and can match the most daring pairings.

The Nature Écru is a vintage sparkling wine. This means it is produced only in the best vintages, when the weather conditions gave perfectly ripened grapes. The wine which is the base for this sparkling wine must be absolutely excellent, because no liqueur d'expédition is added and therefore any defect would be immediately perceivable. The *écru* adjective has been included in the name to emphasize the purity of this wine. The Pinot Noir gives to the Nature Écru unparalleled structure, depth, richness and longevity.

The Oltrepò Pavese area is one of the biggest producer of Pinot Noir in the world and our vineyards rank among the best Oltrepò Pavese crus. This 100% Pinot Noir sparkling wine is a true expression of our *terroir*: don't expect an easy sparkling wine, like many Chardonnay-based ones, but a sparkling wine of structure and strong personality.
